

## Development/Update need for LMS

**Update 1:** Import data tab is not working properly

**Update 2:** Replace the “Course Nature” option with “Course Type”.

**Update 3:** In taxonomies tab, add update/delete option, so that if we need to update or delete any level of taxonomies we may do it.

The screenshot displays the EducationVerse web application interface. At the top, the browser address bar shows the URL `isp.odl.educationverse.org/frontend/config_taxonomy.php?apid=1908`. The header includes the logo of the Institute of Southern Punjab, Multan, and a user profile for Dr. Muhammad Azeem Ahmad. A sidebar menu on the left lists various system modules: Dashboard, User Management, Configurations, Club & Societies, Admissions, Fees, Academics, and Calendar. The main content area is titled "TAXONOMY" and features a search bar and a table of taxonomy entries. The table has two columns: "Taxonomy Name" and "Action". A single entry, "Bloom's Taxonomy", is listed. The "Action" column for this entry contains a button labeled "Add Domains", which is highlighted with a red rectangular box. Below the table, it indicates "Showing 1 to 1 of 1 entries". The footer shows the copyright notice "© EducationVerse 2023" and the developer "By CFE Solutions".

Offering Type	Normal		

Course Image

Course Description

The Fundamentals of Management course provides a comprehensive introduction to the fundamental concepts, theories, and practices of management. It explores the key functions of management—Planning, Organizing, Leading, and Controlling [POLC]—and their application in various business environments. This course is designed to equip students with essential decision-making, leadership, and strategic management skills that are critical for success in any organization. Through a combination of theoretical knowledge, case studies, students will develop a deep understanding of how managers drive business success and adapt to dynamic challenges in today's global market.

**Update 12:** Change the gradebook as provided on next page.
