

# MVG - Responsiveness & Technical Issues

---

## Mobile responsiveness issues

1. There is a gap issue with the cards on mobile; the same gap is not consistent across all cards.(How My VA Gurus Can Be Your Key To Digital Dominance -Section)

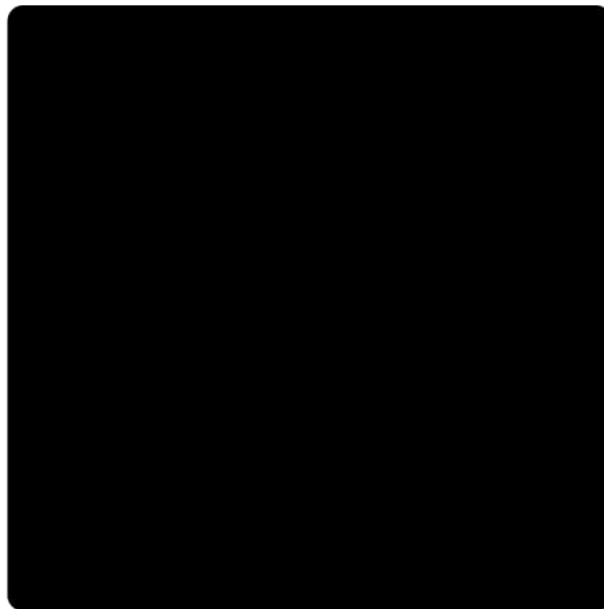

2. On the '**About Us**' page, this section is not showing any image or video; it only displays a black card space.

”

*I am a fully satisfied client of MVG. They have highly skilled virtual assistants. Proficiency and punctuality are hallmarks of their service.*

John Maxwell

## FAQs On Our Services

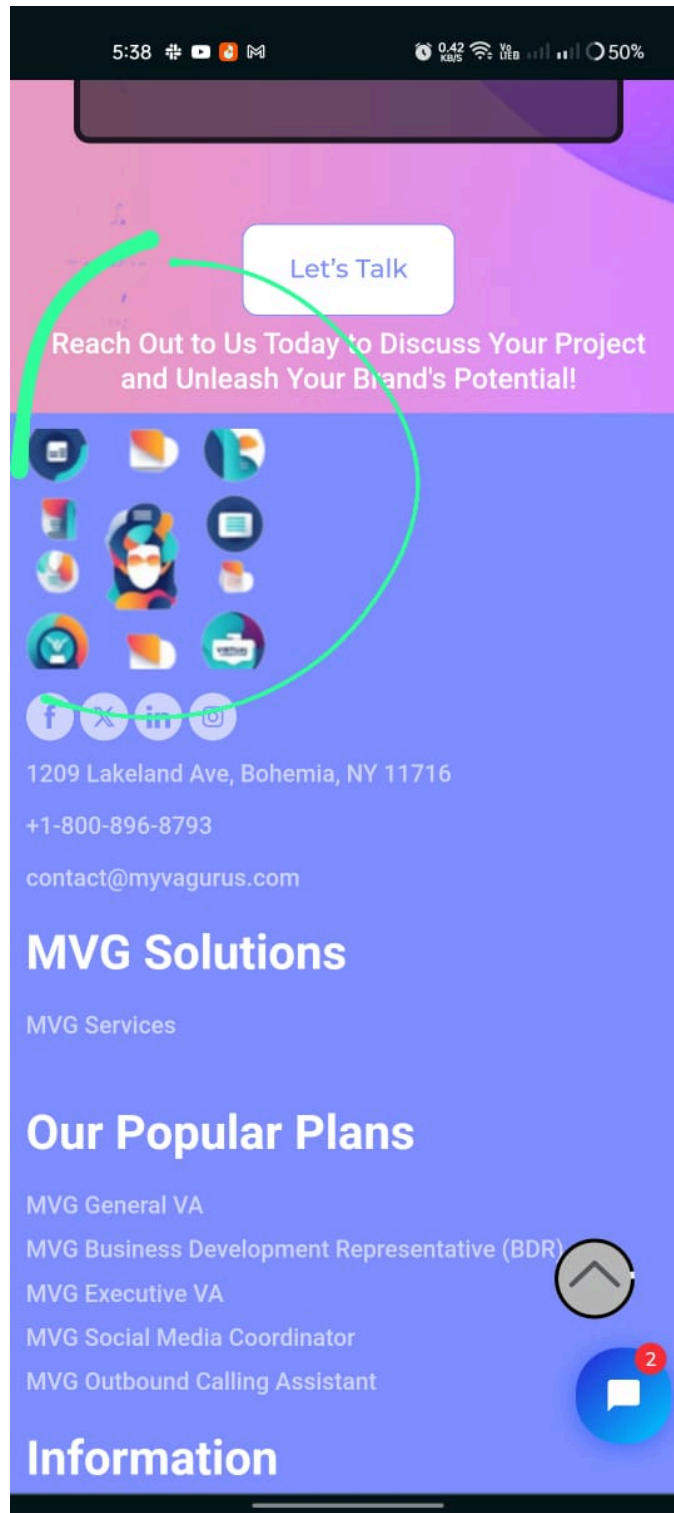

Why should we hire a virtual assistant?

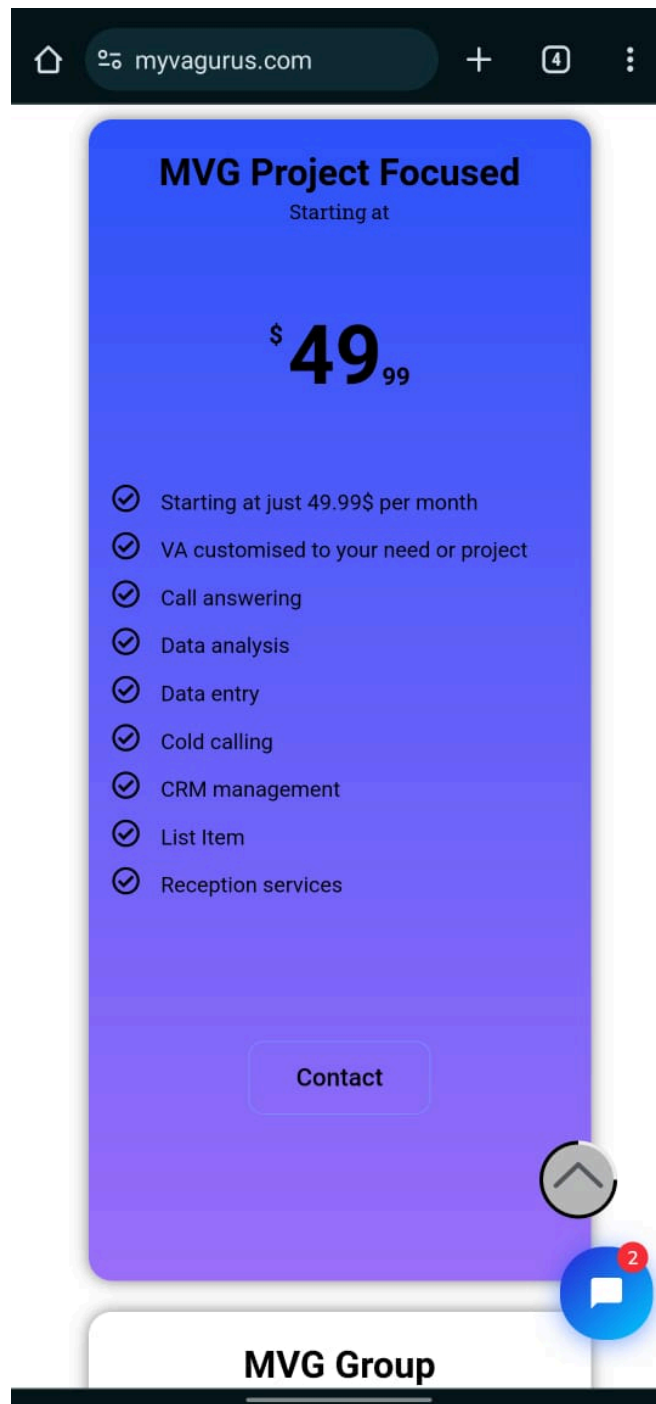

Nowadays getting things done quickly and effectively is crucial, with virtual assistant you will

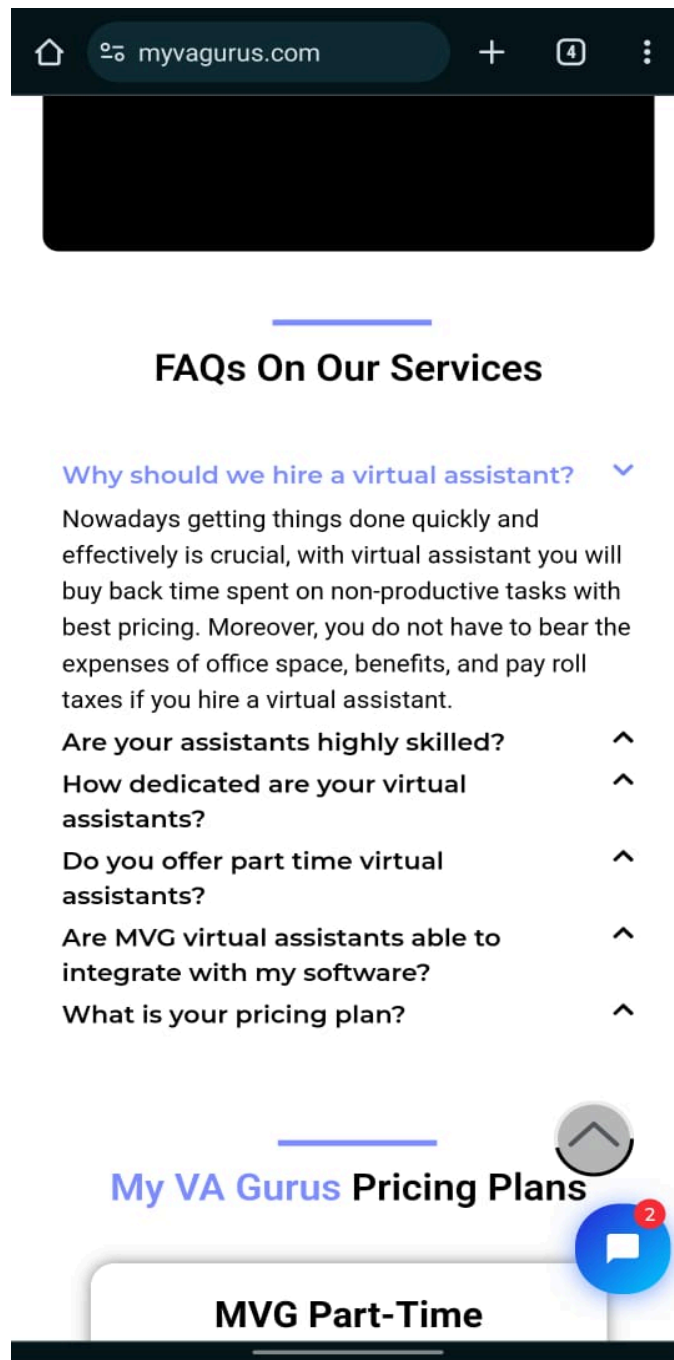

3. logo size is very large.

4. Size of these sections is very large in mobile view; reduce their size. And there is too much negative/empty space in it; reduce it.

5. Update FAQs section a bit larger, and improve its styling so that it looks more attractive. And space within the questions is too little; increase it.
